

# What Does This Look Like?

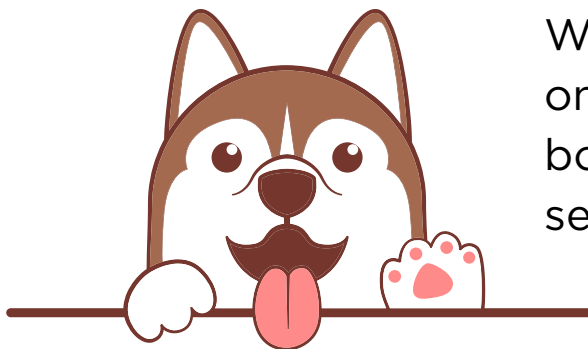

## 1-Way Groomer DROP-OFF

We will complete the check in process and make sure everything is on track for your groom to run smoothly. This includes confirming the cut/style and any other information you requested. The Pet Taxi Expert will also attempt to gain a general idea as to when your pet's spa day should be complete and be ready for pick-up.

While waiting for our turn to check-in, during the check-in process itself, and until the time your pet is released to Grooming Staff, your pet(s) will be continually loved on, cuddled, provided treats (with your consent), and never let out of our sight.

When it's time for us to go, we will give one last hug & kiss, and "be a good boy/girl" and make sure they are all settled in with the Groomer before we exit.
