

What Does This Look Like?

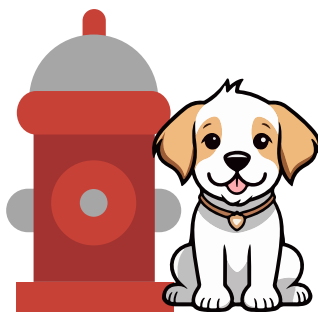

1-Way Groomer PICK-UP

We will complete the check-out process and make sure everything went as you requested (according to the Grooming Staff's word). We will check your pet for any visible cuts or injuries and notify you immediately if anything is discovered. If a filled-out paper check has been provided to our Pet Taxi Expert for payment, we will pass that to the Grooming Staff on your behalf.

While waiting for our turn to check-out and during the check-out process itself, your pet(s) will be continually loved on, cuddled, provided treats (with your consent), and never let out of our sight.

Before we leave the groomer grounds, we will always try to potty and see if we'd like some water. We may even get a little energy out for a few minutes too. After that, we're on our way back home!
